

Top three reasons to choose Diamond Select

Significant savings on like-new Philips imaging systems

“With the Philips Diamond Select Allura Xper FD20 system, we have been able to afford the latest technology and can now provide our patients with additional services, which we could not offer before.”

Jodie Wood, Director Cardiovascular Services, Christus Hospital – St. Mary, Port Arthur TX

Philips Diamond Select provides reliable, like-new refurbished imaging systems at an attractive price. No matter the size or financial circumstances of your facility, Philips can help you fulfill the commitment to provide the very best for your patients. Our wide variety of offerings ranges from current releases to legacy systems (CT, Interventional X-ray, MR, Nuclear Medicine, Surgical C-arms, and Ultrasound).

Why choose Philips Diamond Select?

1. Award winning quality

- In 2010 Frost & Sullivan recognized Diamond Select for “Product Quality Leadership” among OEM-refurbished systems
- Same-as-new support: Clinical Education, Service, upgradeable
- Like-new appearance, same one-year system warranty as new systems

2. Transparent process

- Expert de-installation, refurbishment and installation completed by Philips trained technicians
- Scalable configurations specific to your facility's needs
- Request a modality-specific process overview

3. Specialized refurbishment factories

- Several dedicated, state-of-the-art refurbishment centers, in the U.S. and around the world
- Visit a refurbishment center to witness our process first-hand
