

Get the most out of your system

Philips Technology Updates for General X-ray

In choosing your Philips X-ray system, you have invested in cutting-edge technology that will help you provide safer, faster and more accurate care to your patients, while optimizing management of your clinical operations.

Keep your system fresh

Having access to latest radiography and fluoroscopy applications influences what you can do and how professional you can do it. Keeping up with the pace of innovation is an important part of continually offering your patients the latest advances in healthcare and maximizing the capabilities of your Philips X-ray system.

We offer you an easy way to maintain the standard of your Eleva family based Philips X-ray system* at a fixed and easily managed cost. Choose Philips Technology Updates as an option to your Philips Comprehensive Service Agreement, and we will protect your X-ray system against obsolescence and take care of keeping it at the highest levels of performance as new technology is developed.

Fit for the future

With this service, Philips provides updates to your X-ray system hardware, software and applications as soon as they become available. Your local Philips service organization then implements the necessary changes at a time that is convenient for you. And because we simplify updates for you, you have the time and resources to focus on what really matters – how these new functionalities can improve your patient care.

* Available for the DigitalDiagnost, Essenta DR, PCR Eleva, EasyDiagnost Eleva, and MultiDiagnost Eleva only

PHILIPS
